SUMMARY

Staff Software Engineer and System Architect with over 15 years of experience in software development and research of programming languages and frameworks. Focus on Java, cloud security, distributed systems and API platforms. Holds four AWS certifications, Certified Kubernetes Application Developer (CKAD) and Oracle Java SE 7 Programmer certifications (OCAJP 7, OCPJP 7).

SKILLS

- **Languages:** Java, PHP, PL/SQL, JavaScript, Go
- **Cloud & Infrastructure:** Amazon Web Services (AWS), Kubernetes, Docker, cloud security
- **Backend & Integration:** Oracle ADF, SOA, BPEL, web services, Apigee (API management), Quarkus, NATS
- **Databases:** MySQL, PostgreSQL, SQL Server, Oracle
- **Security & Identity:** SPIFFE/SPIRE, mTLS, Envoy, Istio
- **Mobile & Geolocation:** Android development, Google Maps API

EXPERIENCE

Software Engineer / System Architect — Edge Mobile Ideas, Paraguay
06/2012 – Present

- Developed Android-based software.
- Maintained an in-house framework based on PHP 5.
- Optimized relational databases (MySQL, PostgreSQL, SQL Server).
- Implemented geolocation features using the Google Maps API.
- Exposed and managed APIs with Apigee.

Programmer — Konecta S.A., Paraguay
03/2011 – 03/2012

- Built systems on an SOA architecture using the Oracle ADF framework (JSF, Java, JavaScript, CSS).
- Translated PL/SQL to Java for use with code generators.
- Created and published web services and BPEL projects on Oracle Application Server (OAS).

EDUCATION

Computer Programming — Facultad Politécnica, Universidad Nacional de Asunción
Paraguay • 2008 – 2013

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional — Amazon Web Services
- AWS Certified Solutions Architect – Associate — Amazon Web Services
- Certified Kubernetes Application Developer (CKAD) — Cloud Native Computing Foundation
- Oracle Certified Professional, Java SE 7 Programmer (OCPJP 7) — Oracle

- Oracle Certified Associate, Java SE 7 Programmer (OCAJP 7) — Oracle

PROJECTS

Proteus — https://github.com/kiquetal/proteus-oss

- Zero-trust service mesh on AWS ECS Fargate using SPIFFE/SPIRE and Envoy, with a custom ECS node attestor plugin that replaces join tokens with IAM-role-based attestation.

Technical blog — https://kiquetal.dev

- Bilingual (English/Spanish) engineering blog on cloud security, AWS, service identity, Istio and Java.
